Address: Sector G-9/3, Islamabad

Profile

A highly motivated, skilled and knowledgeable computer scientist with extensive knowledge of programming and computer applications.

I love to work in a competitive and challenging atmosphere, where I can transfer words and ideas into action for the goodwill of the organization and where I stretch my skills to contribute for the betterment of organization and the people involved.

I completed my bachelors from Bahria University, Islamabad scoring decent grades, developed a machine learning mobile application that was nominated in the top FYP's of that time.

I am highly passionate about landscape, street & adventure photography and films.

I love to travel, discover new grounds, meet new people, take risks & spread a positive Vibes.
